

Maths Day in Class 2

Thursday 15th October 2020

We have been learning about the 4 seasons and sketched a picture of a tree in Autumn in our Seasons book.

We had to throw 2 beanbags into hoops and then Year 1 had to calculate the total of the 2 numbers. In Year 2 the first number hoop the beanbag landed in was the amount of tens and the second number was the amount of ones. They then had to calculate the total.

The children are brilliant mathematicians.

Maths Day in Class 2

Thursday 15th October 2020

We had great fun programming the beebot to help us learn about direction. We had to direct the beebot to find places on the map. Our last challenge was to reach the treasure which was really tricky but we did it!
